

# **\*35 Stars\***

## **Transition Year 2020/21**

---

On Monday last all Transition Years participated in a team building exercise called '35 Stars', writes *Aisling Nevin Ty*. This involved students taking part in multiple activities such as Mega Bingo and Battleships. Each student was given a timetable which showed who was in their group and when their one hour time slot was. Every group had 12-14 students to account for social distancing.

---

Each group was split into pairs. In this pair we would have to communicate and work together to work out the best possible route to win the games. These activities helped us to make new friends as we were working with students who we might not usually have talked to. All of the Transition Year students would agree that the experience was thoroughly enjoyed. We

would like to thank the teachers who organised and supervised this activity and also like to say a huge thank you to *Paul Barren*, the instructor of this event.
