Nenagh River Walk

Transition Year 2020/2021

On Tuesday last our TY students enjoyed the Nenagh River walk, writes Oliwia Walenciuk. We embarked early on this nature-filled journey, through flowery fields and bushes, over broken bridges and past young horses and almost managing to avoid a swarm of bees! The adventure lasted around 5 hours and our steps total averaged around 20,000 each! The picnic was also one to remember, the sounds of the water cascading over the weir at Hanley's Mills and the incredible views allowed us to spiritually savour the experience as well.

In the end it was agreed that the route is a real hidden gem on our doorsteps and we would encourage everyone to give it a go. Though we were sore and tired we definitely appreciated the day out, and thanks of course to our teachers that supported us.
